SCANNER SYSTEMS / BARCODES

RADIO SCANNERS | HAND SCANNERS | BARCODE LABELS

Scannersystems & barcodes

Our scanner / barcode–systems

Our scanner / barcode systems offer effective solutions for optimal and reliable control of inventories, laundry throughput and stock capacity levels. We configure the scanner to your barcodes, thus enabling you to begin scanning immediately. In addition to that, our entire range of scanners features robust housing, light design and a practical, ergonomic shape. Mit unserer breiten Auswahl an Barcodes finden Sie Ihren Wunsch-Barcode!

How about...

Aluminium barcode tags

These laser-inscribed barcode tags are made of acid and alkali-resistant aluminium and are ideal for labelling transportation trolleys. They are available on request in various sizes for attachment with rivets (with two or four mounting holes) or adhesive.

We would be happy to advise you on the best scanner and barcode.

BARCODE LABELS

As unique as a fingerprint: barcodes give textiles and other articles an identity. With their help, inventory, stock utilisation and, for example, also the lifecycle of an item of laundry can be tracked and controlled precisely.

SEW-ON WOVEN BARCODE LABELS

- additional text and logos can be integrated
- no changes after 100 wash cycles at 95°C in alkaline solution with a pH value of 10,5 – 11
- bleaching with all common bleaches and neutralisation in anorganic acids
- tunnel drying at 180°C
- chemical cleaning with organic solvents
- cut individually
- standard sizes (w x h): 76 x 29 mm

Optional
- with finishing (for easy application)
- labels on roll for automatic processing
- labels with loops for temporary marking
- other customisations on request
- for heat sealing

CUSTOM FORMATS POSSIBLE

Code type	Label dimensions (width x height)				Character representation
	6-digit	8-digit	10-digit	12-digit	
Data matrix	52 x 29 mm	52 x 29 mm	52 x 29 mm	52 x 29 mm	letters, numbers
Code 128 / C	76 x 29 mm	86 x 29 mm	95 x 29 mm	105 x 29 mm	numbers, even number of digits
Code 128 / AC	88 x 29 mm	98 x 29 mm	108 x 29 mm	115 x 29 mm	letters, numbers
2/5 Interleaved	65 x 29 mm	76 x 29 mm	86 x 29 mm	98 x 29 mm	numbers, even number of digits

When ordering, the consecutive numbers (from... to...), the type of code, the size and the desired text must be given.

SELF-ADHESIVE BARCODE TAGS TYPE SK PRINTED

- ideal for stocktaking and the labelling of transportation trolleys and cabinets
- additional text, graphics and logos possible
- standard sizes (w x h): 35 x 25 mm, 50 x 25 mm, 68 x 34 mm

CUSTOM FORMATS POSSIBLE

PRINTED BARCODE LABELS AND DATA MATRIX CODE LABELS

- for heat sealing
- 6, 8, 10 or 12 digits possible as standard (others on request)
- text lines can be integrated above or below the barcode
- available in various dimensions and sizes
- cut individually
- standard sizes (w x h): 40 x 20 mm, 50 x 20 mm, 60 x 24 mm, 75 x 24 mm, 88 x 24 mm

MORE INFORMATION

Scanner	linear radio scanner with improved decoding performance
Reading function	reads all common linear barcodes
Max. reading distance	80 cm
Range from base station	15 m

Delivery includes:
- scanner
- base station
- power adapter
- USB cable set
  or RS-232 cable set
  or PS/2 cable set

Gryphon GM4132   Art. no. 22878

Scanner	2D radio scanner for omnidirectional scanning
Reading function	reads all common barcodes (linear and 2dimensional)
Max. reading distance	48 cm
Range from base station	10 m

Delivery includes:
- scanner
- base station
- power adapter
- USB cable set
  or RS-232 cable set
  or PS/2 cable set
- **optional:** stand

Xenon 1952   Art. no. 22851

MORE INFORMATION

Scanner	2D radio scanner for omnidirectional scanning
Reading function	reads all common barcodes (linear and 2dimensional)
Max. reading distance	38 cm
Range from base station	10 m

Delivery includes:
- scanner
- base station
- power adapter
- USB cable set
  or RS-232 cable set
  or PS/2 cable set
- **optional:** stand

Scanner	2D radio scanner for omnidirectional scanning
Reading function	reads all common barcodes (linear and 2dimensional)
Range from base station	10 m

Delivery includes:
- scanner
- carrying bag
- hand cuff
- battery charger
- power adapter incl. cable
- **optional:** Replacement, Battery
- **optional:** additional hand cuff

Further advantages:
- super light with only 80g
- extremely robust
- completely wireless
